Your Benefit Summary

HSA-E Qualified 6000 Bronze

Providence Health Plan

Providence Signature Network	In-Network	Out-of-Network
Individual Calendar Year Deductible (family amount is 2 times individual)	$6,000	$12,000
Individual Out-of-Pocket Maximum (family amount is 2 times individual) This amount includes the Deductible.	$7,450	$14,900

Important information about your plan

This summary provides only highlights of your benefits. To view your plan details, register and login at myProvidence.com.

- Not Medicare Part D creditable.
- In-Network and Out-of-Network Deductibles and Out-of-Pocket Maximums accumulate separately.
- The individual deductible applies if there are no dependents enrolled. If two or more members are enrolled, the embedded individual deductible applies for each member only until the family deductible is met.
- The individual out-of-pocket maximum applies if there are no dependents enrolled. If two or more members are enrolled, the embedded individual out-of-pocket applies for each member only until the family out-of-pocket is met.
- Some Services and penalties do not apply to the Out-of-Pocket Maximum.
- Prior Authorization is required for some Services.
- View a list of In-Network Providers and pharmacies at ProvidenceHealthPlan.com/findaprovider.
- To get the most out of your benefits, use the providers within the Providence Signature network.
- If you choose to go outside the network, you may be subject to billing for charges that are above Usual, Customary and Reasonable charges (UCR). Benefits for Out-of-Network services are based on these UCR charges.
- Limitations and exclusions apply. See your handbook for details.
- HSA status is not automatic with enrollment in this High Deductible Health Plan (HDHP). See your handbook for more details.
- Your first three Primary Care Provider (PCP) visits and first three outpatient behavioral health visits of each calendar year are eligible to be covered in full if you have met your deductible. If you have not met your deductible, you will be charged and the amount will go toward your deductible.
- Find important information about how to use your plan at ProvidenceHealthPlan.com/usingyourplan.
- Learn more about PHP's covered preventive services rated "A" or "B" by the U.S. Preventive Services Task Force at ProvidenceHealthPlan.com/PreventiveCare.

Tier 3	45% coinsurance
Tier 4	45% coinsurance

Pharmacies

Your prescription drug benefit requires that you fill your prescriptions at a Participating Pharmacy. There are four types of participating pharmacies:

- Retail: a Participating Pharmacy that allows up to a 30-day supply as outlined in your handbook of short-term and maintenance prescriptions.
- Preferred Retail: a Participating Pharmacy that allows up to a 90-day supply of maintenance prescriptions and access to up to a 30-day supply of short-term prescriptions.
- Specialty: a Participating Pharmacy that allows up to a 30-day supply of specialty and self-administered chemotherapy prescriptions. These prescriptions require special delivery, handling, administration and monitoring by your pharmacist.
- Mail Order: a Participating Pharmacy that allows up to a 90-day supply of maintenance prescriptions and specializes in direct delivery to your home. To order prescriptions by mail, your provider may call in the prescription or you can mail your prescription along with your Member identification number to one of our participating mail-order pharmacies.
- View a list of our participating pharmacies at ProvidenceHealthPlan.com/planpharmacies

Using your prescription drug benefit

- To find if a drug is covered under your plan check online at ProvidenceHealthPlan.com/pharmacy. Note that your plan's formulary includes ACA Preventive drugs which are medications that are covered at no cost when received from participating pharmacies as required by the Patient Protection and Affordable Care Act.

Prescription Drugs

Formulary P-HSA

- FDA-approved women's contraceptives, as listed on your formulary, are covered at no cost for up to a 12-month supply, after a 3-month initial fill, at any Participating Pharmacy.
- You may purchase up to a 90-day supply of maintenance drugs using a participating mail-service or preferred retail pharmacy. Not all drugs are considered maintenance prescriptions, including compounded drugs and drugs obtained from specialty pharmacies.
- If you or your provider request or prescribe a brand-name drug when a generic is available, regardless of reason, you will be responsible for the cost difference between the brand-name and generic drug in addition to the Tier 4 or Tier 6 copayment or coinsurance indicated on the benefit summary. Your total cost, however, will never exceed the actual cost of the drug.
- Not all drugs are included in the formulary. A formulary exception (a form of Prior Authorization) is required for coverage of drugs that are not in the formulary.
- Prior Authorization is not required for medications used to treat Substance Use Disorders, including opiate addiction and withdrawal. Additionally, if your Substance Use Disorder medication has been lost, stolen, or destroyed, you are entitled to up to three early refills of your medication. If you need a refill of your Substance Use Disorder medication and your prescription has expired in the last 12 months, you are entitled to one refill of your medication without a current prescription.
- Approved non-formulary non-specialty drugs will be covered at the Tier 4 cost sharing tier. Approved non-formulary specialty drugs will be covered at the Tier 6 cost sharing tier.
- Compounded medications are prescriptions that are custom prepared by your pharmacist. They must contain at least one FDA-approved drug to be eligible for coverage under your plan. Compounded medications are covered for up to a 30-day supply at a 50% coinsurance after the deductible. Claims are subject to clinical review for medical necessity and are not guaranteed for payment.
- Core Preventive drugs: The Core Preventive drug list is made up of first-line medications that PHP has selected that may prevent the onset of a disease or condition when taken by a person who has developed risk factors for the disease or condition that has not yet manifested itself or has not become clinically apparent, or may prevent the recurrence of a disease or condition from which a person has recovered. Core Preventive drugs are exempt from the deductible, subject to the formulary and applicable tier cost share.
- Specialty drugs are prescriptions that may require special delivery, handling, administration, and/or monitoring. They may also be limited to a 30-day supply. These medications may be found on any tier and will be indicated as "Specialty" on your formulary. Most specialty and chemotherapy drugs are only available at our designated specialty pharmacies.
- Diabetes supplies may be obtained at your participating pharmacy, and are covered under your prescription benefit. Refer to your formulary and Member Handbook for details.
- Certain drugs, devices, and supplies obtained from your pharmacy may apply towards your medical benefit.
- Insulin cost share capped at $35 for a 30-day supply, $105 for a 90-day supply. Deductible does not apply.
- Some drugs require Prior Authorization for coverage to determine that the drug is medically necessary and appropriate for the intended use (such as evaluating place and length of therapy, trial of more cost-effective therapies, or number of doses).
- Self-administered chemotherapy is covered under the Prescription Drug Benefit unless the Outpatient Chemotherapy coverage results in a lower out-of-pocket expense to you. Please refer to your Handbook for more information.
- Certain injectable medications are deemed as Self-Administered Drugs by Providence Health Plan and will not be covered when administered by your provider, unless Prior Authorization is approved. Drugs may be deemed as Self-Administered Drugs if they are labeled by the FDA for administration by a patient (or their caregiver). Injectable medications labeled by the FDA for administration only by a healthcare provider will generally be covered by your medical benefit.

Prescription Drugs

Explanation of terms and phrases

ACA Preventive Drugs - ACA Preventive drugs are medications, including contraceptives, which are listed in our formulary, and are covered at no cost when received from Participating Pharmacies as required by the Patient Protection and Affordable Care Act (ACA). Over the counter preventive drugs received from Participating Pharmacies cannot be covered in full without a written prescription from your Qualified Practitioner.

Annual Limit on Cost-sharing - The maximum amount a Member pays Out-of-Pocket per Calendar Year for In-Network essential health benefit Covered Service when two or more Family Member are enrolled in this plan.

Brand-name drugs - Brand-name drugs are protected by U.S. patent laws and only a single manufacturer has the rights to produce and sell them.

Coinsurance - The percentage of the cost that you may need to pay for Covered Service.

Copay - The fixed dollar amount you pay to a healthcare provider for a Covered Service at the time care is provided.

Core Preventive drugs - The Core Preventive drug list is made up of medications that Providence Health Plan has selected, with the guidance of our Clinical Pharmacy Division. These are first-line medications that may prevent the onset of a disease or condition when taken by a person who has developed risk factors for the disease or condition that has not yet manifested itself or has not become clinically apparent, or may prevent the recurrence of a disease or condition from which a person has recovered. Core Preventive drugs are subject to formulary and tier status, as well as pharmacy management programs such as Prior Authorization, step therapy and/or quantity limits. Providence Health Plan has developed the list of Core Preventive drugs based on IRS Notices 2019-45 and 2004-23, section 223(c)(2)(C) of the Internal Revenue Code).

Deductible

Individual - The Individual Deductible is the amount that applies regardless of how many Members are enrolled in this plan, and is the amount that must be paid by the Member before the plan pays for any Covered Services for that Member.

Family - The Family Deductible is the amount that applies when two or more Family Members are enrolled on the plan, and is the maximum deductible that enrolled Family Members must pay. All amounts paid by Family Members toward their Individual Deductibles apply toward the Family Deductible. When the Family Deductible is met, no further Individual Deductibles will need to be met by any enrolled Family Members.

NOTE: No Member will ever pay more than an Individual Deductible before the Plan begins paying for covered services for that Member.

Formulary - A formulary is a list of FDA-approved prescription drugs developed by physicians and pharmacists, designed to offer effective drug treatment choices for covered medical conditions. The Providence Health Plan formulary includes brand-name, generic, and specialty medications.

Generic drugs - Generic drugs have the same active ingredients as the brand-name formulation. Generic drugs are equivalent to the brand-name formulation in safety and effectiveness. Generic drugs are usually available after the patent expires for the brand-name formulation.

Health Savings Account (HSA) - A tax-exempt medical savings account available to taxpayers who are enrolled in a high-deductible health plan (HDHP) to be used for current and future health care expenses. Contributions can be deducted pre-tax from paychecks, and the money rolls over year to year and stays with the Member even with job changes and retirement.

In-Network - Refers to Services received from an extensive network of highly qualified physicians, health care providers and facilities contracted by Providence Health Plan for your specific plan. Generally, your Out-of-Pocket costs will be less when you receive Covered Service from In-Network Providers.

Limitations and Exclusions - All Covered Services are subject to the limitations and exclusions specified for your plan. Refer to your Member handbook or contract for a complete list.

Maintenance Prescriptions - Medications that are typically prescribed to treat long-term or chronic conditions, such as diabetes, high blood pressure and high cholesterol. Maintenance drugs are those that you have received under our plan for at least 30 days and that you anticipate continuing to use in the future. Compounded and specialty medications are excluded from this definition; and are limited to a 30 day supply.

Medicare Part D creditable

Explanation of terms and phrases

Medicare Part D creditable - Coverage is creditable when the plan payout for prescription drugs is, on average for all plan participants, as much as the average payout under the standard Medicare Part D benefit.

Not Medicare Part D creditable - Coverage is non-creditable when the plan payout for prescription drugs is, on average for all plan participants, less than what standard Medicare Part D prescription drug coverage would be expected to pay.

Non-Formulary Medication - An FDA-approved drug, generic or brand-name, that is not included in the list of approved formulary medications. These prescriptions require formulary exception (a form of Prior Authorization) by the health plan and, if approved, will be covered at either the highest non-specialty or specialty cost sharing tier.

Office Visits Virtually - Scheduled visits with the member's PCP or Specialist using a teleconferencing application such as Zoom.

Out-of-Network - Refers to Services you receive from providers not in your plan's network. Your Out-of-Pocket costs are generally higher when you receive Covered Services outside of your plan's network. An Out-of-Network Provider does not have contracted rates with Providence Health Plan and so balance billing may apply. To find an In-Network Provider, go to ProvidenceHealthPlan.com/findaprovider.

Out-of-Pocket Maximum

Individual - The Individual Out-of-Pocket Maximum applies regardless of how many Members are enrolled in this plan, and is the maximum amount of Copayments, Coinsurance and Deductible that must be paid by the Member before the plan begins to pay 100% for Covered Services for that Member.

Family - The Family Out-of-Pocket Maximum applies when two or more Family Members are enrolled on the plan, and is the maximum amount of Copayments, Coinsurance and Deductible that enrolled Family Members must pay before the plan begins to pay 100% for all enrolled Family Members. All amounts paid by Family Members toward their Individual Out-of-Pocket Maximum apply toward the Family Out-of-Pocket Maximum. When the Family Out-of-Pocket Maximum is met, no further Individual Out-of-Pocket Maximums will need to be met by any enrolled Family Members.

NOTE: Once any Member meets the Individual Out-of-Pocket Maximum, the Plan will begin to pay 100% for Covered Services for that Member.

Predetermination of dental benefits – For expensive treatment plans, a predetermination service is available. The dentist may submit a predetermination request to get an estimate of what the Plan would pay. The predetermination will be processed according to the member's current policy and returned to the dentist. You and your dentist should review the information before beginning treatment.

Prescription drug Prior Authorization - The process used to request an exception to the Providence Health Plan drug formulary. A Prior Authorization can be requested by the prescriber, member or pharmacy. Some drugs require Prior Authorization for Medical Necessity, place of therapy, length of therapy, step therapy or number of doses. Visit us online for additional information at ProvidenceHealthPlan.com.

Prescription drug Tier - The prescription drug tier number correlates to a drug's placement on the formulary. Tier 1 and Tier 2 consists of mainly generic drugs while Tier 3 and Tier 4 contains both generic and brand-name drugs. Specialty drugs are typically listed in Tier 5 and Tier 6. Some may be listed on lower tiers. These are designated as "Specialty" on the formulary.

Prior Authorization - Some Services must be pre-approved. In-Network, your provider will request Prior Authorization. Out-of-Network, you are responsible for obtaining Prior Authorization.

Providence ExpressCare Virtual - Services for common conditions (such as sore throat, cough, or fever, etc.) using Providence's web-bases platform through a tablet, smartphone, or computer for same day appointments.

Providence ExpressCare Retail Health Clinic - A walk-in health clinic, other than an office, Urgent Care facility, pharmacy or independent clinic that is located within a retail operation. A Retail Health Clinic provides same-day visits for basic illness and injuries or preventive services.

Specialty Drugs - Specialty drugs are injectable, infused, oral, topical, or inhaled therapies that often require specialized delivery, handling, monitoring and administration and are generally high cost. These drugs must be purchased through our designated specialty pharmacy. Due to the nature of these medications, specialty drugs are limited to a 30-day supply.

Usual, Customary & Reasonable (UCR) - Describes your plan's allowed charges for Services that you receive from an Out-of-Network provider. When the cost of Out-of-Network services exceeds UCR amounts, you are responsible for paying the provider any differences. These amounts do not apply to your Out-of-Pocket Maximums.

Explanation of terms and phrases

Primary Care Provider - A qualified physician or practitioner that can provide most of your care and, when necessary, will coordinate care with other providers in a convenient and cost-effective manner.
