

Your Benefit Summary

Value Based Prescription Drug Plan

Important information about your plan

This summary provides only highlights of your pharmacy benefits. Certain limitations and exclusions apply. To view all your plan details, register and log in at www.myProvidence.com.

- To find out how a drug is covered under your plan, view the complete formulary and pharmacy information available online at www.ProvidenceHealthPlan.com or call us.
- You have broad access to our network of participating pharmacies and their services at discounted rates. Pharmacies are designated as participating retail, preferred retail, specialty or mail-order pharmacies.
- View a list of participating pharmacies, including specialty pharmacies, at www.ProvidenceHealthPlan.com or call us.
- Not sure what a word or phrase means? See the back for the definitions used in this summary.
- Copayments and coinsurance apply to your medical plan out-of-pocket maximum.

Drug Coverage Category	Copay or Coinsurance		
	All Participating and Preferred Retail Pharmacies (for up to a 30-day supply)	All Mail Order and Preferred Retail Pharmacies (for up to a 90-day supply of maintenance prescriptions)	All Participating Specialty Pharmacies (for up to a 30-day supply of specialty drugs)
Value drug	\$5	\$15	Does not apply
Generic drug	\$10	\$30	\$10
Formulary brand name drug	\$50	\$150	\$50
Non-formulary brand name drug	50%	50%	50%
Compounded drug	50%	Does not apply	Does not apply

What you need to know about drug coverage categories

- Both generic and brand-name drugs are covered subject to the terms of your plan.
- ACA Preventive Drugs are covered in full for up to a 30-day supply purchased at a participating / preferred retail pharmacy. Covered in full for up to a 90-day supply of maintenance drugs at a preferred retail or mail order pharmacy.
- If the cost of your prescription is less than your copay, you will only be charged the cost of the prescription.
- If your brand-name benefit includes a copayment or a coinsurance and you or your provider request or prescribe a brand-name drug when a generic is available, regardless of reason, you will be responsible for the cost difference between the brand-name and generic drug in addition to the brand-name drug copayment or coinsurance indicated on the benefit summary. Your total cost, however, will never exceed the actual cost of the drug.
- Compounded medications are prescriptions that are custom prepared by your pharmacist. They may be obtained at your participating pharmacy and must contain at least one FDA-approved drug to be eligible for coverage under your plan. Compounded medications are covered for up to a 30-day supply at a 50% coinsurance. Claims are subject to clinical review for medical necessity and are not guaranteed for payment.
- Specialty drugs are prescriptions that require special delivery, handling, administration and monitoring by your pharmacist and are limited to 30 days. In rare circumstances, specialty medications may be filled for a great than 30-day supply; in these cases, additional specialty cost-share(s) may apply.
- Self-administered chemotherapy drugs are covered under your pharmacy benefits or your medical benefits, whichever allows for your lowest out-of-pocket cost. Please refer to your medical Benefit Summary for more information.

Using your prescription drug benefit

- Your prescription drug benefit requires that you fill your prescriptions at a participating pharmacy.
- Be sure you present your current Providence Health Plan member identification card, along with your copay or coinsurance when you use a participating pharmacy.
- You may be assessed multiple copayments for a multi-use or unit-of-use container or package depending on the medication and the number of days supplied.
- You may purchase up to a 90-day supply of maintenance drugs using preferred retail or mail order pharmacy after the initial 30-day supply purchase. Not all drugs are considered maintenance prescriptions, including compounded drugs and drugs obtained from specialty pharmacies.
- Most specialty and chemotherapy drugs are only available at our designated specialty pharmacies. For more information, visit us online at www.ProvidenceHealthPlan.com.
- Diabetes supplies may be obtained at your participating pharmacy, and are subject to your group's medical supplies and devices benefits, limitations, and coinsurance. See your Member Handbook for details.
- Certain drugs, devices and supplies obtained from your pharmacy may apply toward your medical benefit.
- Self-injectable medications are only covered when they are being self-administered and labeled by the FDA for self-administration; in some cases, a prior authorization may be required for the drug. Documentation of self-administration may also be required. Drugs labeled for self-administration that are being administered by a provider will fall to your medical benefit.

Using your prescription drug formulary

- The Providence formulary is a list of FDA-approved prescription brand-name and generic drugs developed by physicians and pharmacists. It is designed to offer drug treatment choices for covered medical conditions.
- The formulary can help you and your physician choose effective medications that are less costly and minimize your out-of-pocket expense.
- Some prescription drugs require prior authorization or a formulary exception in order to be covered; these may include select formulary agents, non-formulary agents, step therapy, and/or quantity limits as listed in our Prescription Drug Formulary available on our website.
- Effective generic drug choices are available to treat most medical conditions. Visit www.ProvidenceHealthPlan.com for answers to frequently asked questions about both generic drugs and the formulary.

Ordering prescriptions by mail

- To order prescriptions by mail, your provider may call in the prescription or you can mail your prescription along with your member identification number to one of our participating mail-order pharmacies.
- To find participating mail-order pharmacy information visit us online at www.ProvidenceHealthPlan.com.

If you use a non-participating pharmacy

- Urgent or emergency medical situations may require that you use a non-participating pharmacy.
- If this occurs, you will need to pay full price for your prescription at the time of purchase. Reimbursement forms are available online.
- Reimbursement is subject to your plan's limitations and exclusions.

Your guide to the words or phrases used to explain your benefits

ACA Preventive drug

Affordable Care Act (ACA) preventive drugs are medications, including contraceptives, that are listed in our formulary. They are covered at no cost when received from Participating Pharmacies as required by the Patient Protection and Affordable Care Act (ACA). Over-the-counter preventive drugs received from Participating Pharmacies will not be covered in full without a written prescription from your Qualified Practitioner under your ACA preventive drug benefit.

Brand-name drug

Brand name drugs are protected by U.S. patent laws and only a single manufacturer has the rights to produce and sell them. Your benefits include drugs listed on our formulary as Brand-name drugs.

Coinsurance

The percentage of the cost that you pay to a participating pharmacy, at the time of purchase, for a covered prescription drug.

Compounded drug

The combining, mixing, or altering of covered drugs or other ingredients for a customized prescription for an individual as prescribed by a licensed provider.

Copay

The fixed dollar amount you pay to a participating pharmacy, at the time of purchase, for a covered prescription drug.

Formulary

A formulary is a list of FDA-approved prescription drugs developed by physicians and pharmacists, designed to offer drug treatment choices for covered medical conditions. The Providence Health Plan formulary includes both brand-name and generic medications.

Generic drug

Generic drugs have the same active-ingredient formula as the brand-name drug. Generic drugs are usually available after the brand-name patent expires. Your benefits include drugs listed on our formulary as Generic drugs.

Maintenance drug

Medications that are typically prescribed to treat long-term or chronic conditions, such as diabetes, high blood pressure and high cholesterol. Maintenance drugs are those that you have received under our plan for at least a month's supply and that you anticipate continuing to use in the future. Compounded and specialty medications are excluded from this definition, and are limited to a 30-day supply.

Non-Formulary

An FDA-approved drug, generic or brand-name, that is not included in the list of approved formulary medications. These prescriptions require a prior authorization by the health plan and, if approved, will be covered at either the highest non-specialty or specialty cost sharing tier.

Participating pharmacies

Pharmacies that have a signed contract with Providence Health Plan to provide medications and other services at special rates. There are four types of participating pharmacies:

- Retail: a participating pharmacy that allows up to a 30-day supply of short-term and maintenance prescriptions.
- Preferred Retail: a participating pharmacy that allows up to a 90-day supply of maintenance prescriptions and access to up to a 30-day supply of short-term prescriptions.
- Specialty: a participating pharmacy that allows up to a 30-day supply of specialty and self-administered chemotherapy prescriptions. These prescriptions require special delivery, handling, administration and monitoring by your pharmacist.
- Mail Order: a participating pharmacy that allows up to a 90-day supply of maintenance prescriptions and specializes in direct delivery to your home.

For a complete description of the types of services provided by participating pharmacies, see your Member Handbook.

Prior authorization

The process used to request an exception to the Providence Health Plan drug formulary. This process can be initiated by the prescriber of the medication or the member. Some drugs require prior authorization for medical necessity, place of therapy, length of therapy, step therapy or number of doses. Visit us online for additional information at www.ProvidenceHealthPlan.com

Self-administered chemotherapy

Oral, topical or self-injectable medications that are used to stop or slow the growth of cancerous cells.

Value drug

A specified list of commonly used medications for treating chronic conditions such as diabetes, high blood pressure, high cholesterol, heart disease, depression, asthma and other breathing disorders. These medications may be generic or brand name, and are considered first-line treatments for many conditions. They are on our formulary, and offered at your lowest copay or coinsurance.
